Notes on Recordkeeping & Stewardship

Accurate, consistent records are one of the simplest ways to build trust with donors, grant funders, and community partners. They also help a household or program identify what is working well and where adjustments are needed.

General Best Practices

- Choose one consistent day and time each week to update your logs
- Keep completed templates together, either in a binder or a shared digital folder
- Review monthly summaries with your household or program team to spot trends
- Retain completed records for at least the current fiscal year, and longer if required for grant reporting
- When digitizing these templates into a spreadsheet, keep column headers consistent across months for easy comparison

These templates are provided as general planning and recordkeeping tools. Programs operating under AgroHouse Foundation™ should follow any additional recordkeeping requirements established in Board-approved policies or program operating procedures.
